Surgery & Visiting Specialists

Kirby Surgery & Visiting Specialists

Kirby Medical Center provides a wide variety of surgical procedures right here in Monticello. The majority of our surgeries are same-day or limited-stay procedures, enabling patients to return home more quickly for a smoother, more comfortable period of recovery.

In addition, we offer enhanced surgical services through the expertise of visiting specialists, who provide consultations, ongoing care and follow-up visits, helping patients stay close to home while receiving complex care.

Inpatient and Outpatient Surgical Procedures

When surgery is the best course for treatment, you can count on Kirby for individualized care, state-of-the-art technology and dedicated follow-up. General and specialty surgeries are performed by only the best, highly trained care providers, and include:

- ***Cosmetic and Reconstructive Plastic Surgery***
Comprehensive services include liposuction, tummy tucks, breast enhancement and reconstruction, body contouring procedures, neck and facial surgery, hand surgery and more.
- ***Orthopedic Surgery***
Orthopedic specialty services include advanced treatment options in sports medicine, orthopedic trauma, osteoarthritis, rheumatoid arthritis and more. We provide injury care and physical and occupational therapy if you've experience a traumatic or repetitive motion injury to your joint, bone, tendon or nerves.

Other surgical procedures include:

- Cataract Surgery
- Gastroenterology Procedures
- General Surgery
- Gynecological Procedures
- Podiatry
- Spine Injections

Additional Outpatient Services

Our outpatient surgery program features a private suite for a variety of common procedures such as colonoscopies and endoscopies. We also perform sleep studies to diagnose sleep disorders and prescribe treatment within our Surgery Department.

Visiting Specialties

Our list of visiting specialists rotates, but the departments served generally include:

- Beltone Hearing Aid Service
- Gastroenterology
- General Surgery
- Mental Health
- Oncology
- Ophthalmology
- Orthopedics
- Plastic and Hand Surgery
- Podiatry
- Sleep Medicine
- Spinal Injections
